THE MEXICAN SITUATION

Mexico City, July 18.—With the treasury completely stripped of funds, it is feared that the Carbajal administration will not be able to even pay the salaries of government employes due Monday. There is hope that the banks may come to the rescue. If the government clerks and higher officials are not paid it is certain the administration will face trouble at the outset.

Puerto Mexico, July 18.—Gen. Victoriana Huerta will sail from Puerto Mexico for Jamaica today on the British cruiser Bristol. Three years ago the old Indian dictator escorted Porfirio Diaz to Vera Cruz, when the latter fled from the country before Francisco Madero, and today much the same scenes of farewell were enacted for him.

With Huerta were Senora Huerta, his sons and daughters, Gen. Blanquet and his military staff. According to present plans the party will sail from Jamaica for Paris, where they expect to make their future home.

Juarez, Mex., July 18.—The Mexican federal army will be disarmed and disbanded and the entire force of officers courtmartialled and either executed or expelled from Mexico for periods of from 5 to 10 years according to plan to be followed by constitutionalists when the final transfer of the national government from Pres. Carbajal to Gen. Carranza is made. Gen. Obregon, commanding the division of the northwest, has already been instructed to disarm the federals between Guadalajara and Mexico City.
